## Berlin Lama

After years as a drummer and musical director for other artists, here comes his solo project. Out of the haze into the disco lights! Berlin Lama is a Zurich based one-man band, he's a singer, producer and drummer. Berlin Lama has no history, but a bright future ahead.

## 80 BMX

Berlin Lama serves a big bowl of the ,80s, spiced up with a dash of sparkling funk: his debut album **80 BMX**, sounds like a millennial pink popsicle as well as a deep blue sea. His synth unveils layers, sometimes hypnotic, sometimes meditative, always promising. His songs are pastel dreamscapes to sleepwalk in. They are a crystal clear river to drift in, a silver lake to sink into.

But beware, the beat will creep up on you from behind, under the cool surface there's an undertow that pulls you into unknown waters.
